

Water Cycle in a Bag

Materials Needed:

- Water Cycle Template
- Permanent Marker
- Sandwich Size Bag
- Clear Tape
- Water

Procedures:

1. Print the water cycle template. Trim it down so that it will fit into a sandwich bag.
2. Using a Permanent marker, trace over all parts of the water cycle including the images, words, and arrows.
3. Remove the template from the bag and add $\frac{1}{4}$ cup water to the bag.
4. Using wide, clear packing tape, affix the bag to a window in direct sunlight.
5. Watch the water cycle work over the next few days!
